arators. Call and see us.

BROWN & FOSTER HARDWARE CO.,

36 SOUTH SPRING STREET.

Opp. Post-office.

CONSUMPTION CAN BE CURED.

Read the following testimonial:

JAMES E. MARSH, Philadelph., Pa., writes: "I had consumption for three years, and I was told it was incurable in its nature. I applied to Dr. Williams, who, with his usual skill and care, cured me in three months."

MRS. JAMES GRIFFIN, Buffalo, N. Y., writes: "I well knew of Dr. Williams' throat and lung institute in Detroit, Mich., and I went there to him for treatment. This place is the only one in the country where I placed myself under his care, and I am gratified to know that in most cases he has been successful, and, in a few days, I return home delighted to my friends that I have been cured since the first inhalation from Dr. Williams, who was also successful in curing me."

DR. J. H. MITCHELL, Montreal, Canada, says: "The Southern California climate, and especially the Southern California air, is so weak that after I had spent six months in the Southland, I was unable to cure my consumption, second stage, with the best physicians. I resorted to various inhalations, which did not work in four months from the time I began them. My friends should not depend upon climatic influences alone, for herein lies the secret of their success. If you require positive medication, in order to become fit for the work of the human race, so as to serve the climate an opportunity to heal them."

CONSULTATION FREE.

Please send your name in regard to their offices or location to estimate, to telegraph or write to my office, or mail to my address, 14 North Main street, Los Angeles, Calif., for a copy of the Medical Treatise, containing a list of specialists, and a certificate of their qualifications.

ENLARGED SHEET.

WEDNESDAY, APRIL 8, 1885.

The Soudan.

The reported determination of the British government to abandon the Soudan, and withdraw its armes from that country, upon the recognition of General Wolseley, leaves the False Prophet "on top" is not borne out by the later dispatches from General Graham's front, which represent that offices as moving on the forces of Osman Digna, and Wolseley himself as having placed his strategic person somewhat nearer the scene of action than Cairo. The report of a purpose on the part of the government to abandon the attempt to reduce the Soudane was a great surprise and could not be readily believed by those who know the bulldog tenacity of the British lion (if we may be permitted to so mix metaphors). It is obvious that such evacuation could not be accomplished without humiliation to the great power, which would thus be forced to acknowledge its inability to conquer the "rebellious" sons of the desert. At the same time it is undeniable that there are good reasons for such a move—good reasons of state, if not sufficient military reasons. The military power to be conquered is no contemptible one, and nobody knows its strength so well as the British Ministry. There is no doubt but this power has been carefully measured, and the magnitude of the task of crushing it carefully weighed. Had a conclusion been arrived at to withdraw from the Soudan before further serious losses, from both battle and disease, were sustained by the invaders, it would have been accepted as evidence, not that Britain was unable to conquer the Soudane, which would be absurd, but that her government had concluded that the conquest would not be worth the cost of making it.

Some recently published facts about the Mahdi's military resources show them to be much greater than has generally been supposed by the mass of readers, who have not enjoyed the benefit of special correspondence direct from the Moslem leader's camp. It is stated by an English authority, which appears to be reliable, that the Mahdi's military resources include 15,500 Egyptian regiments, who were originally taken prisoners or deserted to the Mahdi's camp. It is not known, even at English headquarters in the Soudan, how many native warriors have joined Mohammed Ahmed, but he possesses armaments for an almost unlimited number.

Besides the arms and equipments of Hicks and Baker Pasha's forces, which fell into the hands of the enemy, the latter has an enormous quantity of provisions and ammunition, which the Egyptian government had stored in Sephar, Kordofan and Fochado.

As far back as two years ago the Egyptian authorities at Cairo admitted that the Mahdi had captured 9000 guns, 15,000 Remington rifles, and 3,000,000 cartridges. Since then the garrisons of Berber, Shendy and Khartoum have capitulated.

At Khartoum, also, the Mahdi found a vast quantity of ammunition and 5000 to 6000 negro troops well armed. The native army is also copiously supplied with side artillery. Both Sir Charles Wilson's and Lord Charles Beresford's steamers were fired upon by heavy river batteries. There are a large number of Turkish and Arab officers with the Mahdi. The black regiments are drilled by fugitives from Arab's army, and the Mahdi's artillery is worked by Turkish Pashas, who are held to be the best marksmen in the world.

It will be noticed that the authority from which we quote the above figures and estimates—the London Standard—does not pretend to give the entire number of the military force under the Mahdi's command, but it is pretty certain, from various other sources of information, that it outnumbers many times the combined English, Egyptian and Indian force now operating in the Soudan country. This must necessarily be so, if the Soudanes are to successfully continue their resistance, since their armament, discipline and commissariat are still so much inferior to those of their antagonists. But with their marvelous endurance, their fierce bravery, their contempt of death, and their fiery enthusiasm in the cause of Islam, it becomes evident that the British invaders who have undertaken to conquer the Soudan have no insignificant task before them. It is difficult to see how the war can be ended before another winter. The excessive and prostrating heat of the desert will soon put an end to active operations on the British side; or, if marching and fighting are kept up through the summer, it can only be done at a fearful cost of life and the disabling of other thousands by heat and disease.

Pasadena Through Chicago Eyes.

The Chicago Universalist of March has a well-written two-column letter by Mrs. C. A. Soule, descriptive of Pasadena, "the divinely beautiful." Mrs. Soule brings poetic enthusiasm to her description of the unrivaled valley, whose moods of light and shade she has watched by morning, noon, and "at sunset, when floods of living light seemed raining down from the clouds; and afterward, when, the light all gone from the mountains, the pink glow bathed the mountain tops—an afterglow the like of which I never saw—but once before and that on the Bernese Alps. And I have seen it in the night time, when the full moon silvery everything; and then—then! I have wished for a new language with which to speak or write of this valley—this garden, where it seems only angels ought to dwell."

Pasadena is beautiful, not alone to strangers and tourists who look upon her for the first time, but to her own people and to all Angelenos, who never tire of the charming views, the delightful climate and the good society.

Mr. Hamilton's motion to adopt the

CITY COUNCIL

The Municipal Sessions Hold a Model Session.

MR. VELSLIR NOW TO BE INVESTIGATED.

The Eight-Hour Ordinance Passed—Charges of Bribe-Taking Against Chief McCarty—Routine Business.

Council met in regular session yesterday. President Miles in the chair and all members present.

The Board of Library Directors held a prefatory meeting, Mayor Spence in the chair. The report of the Librarian was received and filed, and a number of bills were allowed.

Minutes of last Council meeting were read and approved.

MORE CHARGES.

A motion from Mayor Spence presented charges against the Chief of Police, preferred by G. W. Glower.

These charges accuse the Chief of receiving \$35 per week between January 1 and March 30th, to allow Wong Chung to carry on a game, and that the Chinese game card was issued to him before a warrant upon him by Charles Cruz, a constable of the city. Referred the Committee of Investigation.

The City Auditor presented a statement of the condition of the several funds. Referred to the Committee on Finance.

The City Tax Collector reported collections to the amount of \$4,000.00. The City Assessor reported collections to the amount of \$26,000.00.

The Clerk of Council reported the petition of Mary J. Farnam and others for permission to have olive trees planted on Main Street and Eleventh streets to be granted.

Third—Recommendation to grant permission to have olive trees planted on Main Street and Eleventh streets to be granted.

Fourth—Recommendation to grant permission to have olive trees planted on Main Street and Eleventh streets to be granted.

Fifth—Recommendation to grant permission to have olive trees planted on Main Street and Eleventh streets to be granted.

Sixth—Recommendation to accept the petition of T. S. Rogers and others for permission to have olive trees planted on Main Street and Eleventh streets to be granted.

Seventh—Recommendation to establish the office of Postmaster at Spring and Main Streets, to be located in the building of the City Surveyor, and to have the same referred to the Committee of Investigation.

Eighth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

The Clerk of Council reported the petition of Mr. G. J. Taylor for a permit to have a sign board erected by the City Surveyor.

Ninth—Recommendation to establish the office of Postmaster at Spring and Main Streets.

Tenth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Eleventh—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Twelfth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Thirteenth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Fourteenth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Fifteenth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Sixteenth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Seventeenth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Eighteenth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Nineteenth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Twentieth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Twenty-first—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Twenty-second—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Twenty-third—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Twenty-fourth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Twenty-fifth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Twenty-sixth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Twenty-seventh—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Twenty-eighth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Twenty-ninth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Thirtieth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Thirty-first—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Thirty-second—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Thirty-third—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Thirty-fourth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Thirty-fifth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Thirty-sixth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Thirty-seventh—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Thirty-eighth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Thirty-ninth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Fortieth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Forty-first—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Forty-second—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Forty-third—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Forty-fourth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Forty-fifth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Forty-sixth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Forty-seventh—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Forty-eighth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Forty-ninth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.

Fiftieth—Recommendation to the Board of Health to call a number of dead animals on Main and Alameda Streets.
